SOIL PROPERTIES

NITROGEN

The available N(Nitrogen) content in soil is

31.01 kg/acre, which is low.

PHOSPHORUS

The Available P (Phosphorus) content in

soil is 29.21 kg/acre which is medium.

POTASH

The available K (Potash) content in soil is

16.10 kg/acre, which is low.

PH

The PH value of soil is 4.49, which is

strongly acidic.

MOISTURE

The moisture present in the soil is 19.39

Parsed Values:

- Nitrogen: 31.01
- Phosphorus: 29.21
- Potash: 16.1
- pH: 4.49
- Moisture: 19.39

Recommended Crops with Market Prices:

- Finger Millet: ₹2100
- Cotton: ₹6200

Warnings:

- No crops match both soil and season. Showing soil-suitable crops only.
- Rice is not recommended for this soil profile in Rabi season.
